

Join the FUN!

Experience Near Space!

You can join the fun in a High-Altitude Balloon launch Saturday, June 4th at 9:30 AM at the Riverside Park in Independence, KS

Great fun for families, kids, technology geeks and hams
Everyone is welcome!

The Independence, KS Amateur Radio Club, N0ID, (HAM Radio) will launch a "High Altitude Balloon" equipped with electronics allowing you to join the fun!

- From the launch site you will be able to witness the balloon release and watch as it ascends to over 50,000 feet above the ground!
- Watch a live feed video from a camera in the balloon as it travels above SE Kansas and perhaps beyond!
- You can participate by observing its location from a computer or smartphone. Go to www.APRS.fi/ac0ae-11 -- [ACOAE-11](http://www.APRS.fi/ac0ae-11) is the ID for the balloon!
- **HAMS!** - Talk hundreds of miles through the balloon's cross-band repeater as a low-orbit satellite! Uplink frequency is 147.910 MHz and downlink frequency is 449.010 MHz (no tone). We will have Net Control to log contacts and keep things moving!
- Be a part of the chase party using tracking antennas!

Saturday, June 4, 2022 @ 9:30 am
Meet at the "Oval" Grass Area East of the Carousel
Lat/Long 37.238994, -95.699905
